

THE DOCTOR WILL SEE YOU **NOW**

See your doctor face to face, when and where you want—without visiting the office

Sometimes you have health concerns that need attention, but you're too busy to make a trip to the doctor's office. Using video visits,* you can meet with your personal doctor and other health care providers face to face from home, from work, and even on the go. They're easy, secure, and part of your coordinated care, so you can always get the care you need—on your terms.

*Video visits are available to Kaiser Permanente members who have a camera-equipped computer or mobile device and are registered at kp.org. You must be present in Maryland, Virginia, or Washington, DC, for video visits with your primary care physician or behavioral health provider. For urgent video visits with an emergency doctor, you may also be present in West Virginia, Florida, North Carolina, or Pennsylvania. For certain medical or mental health conditions. For video visits with a behavioral health provider, appointments can be scheduled for follow-up care.
