TOP DOCS

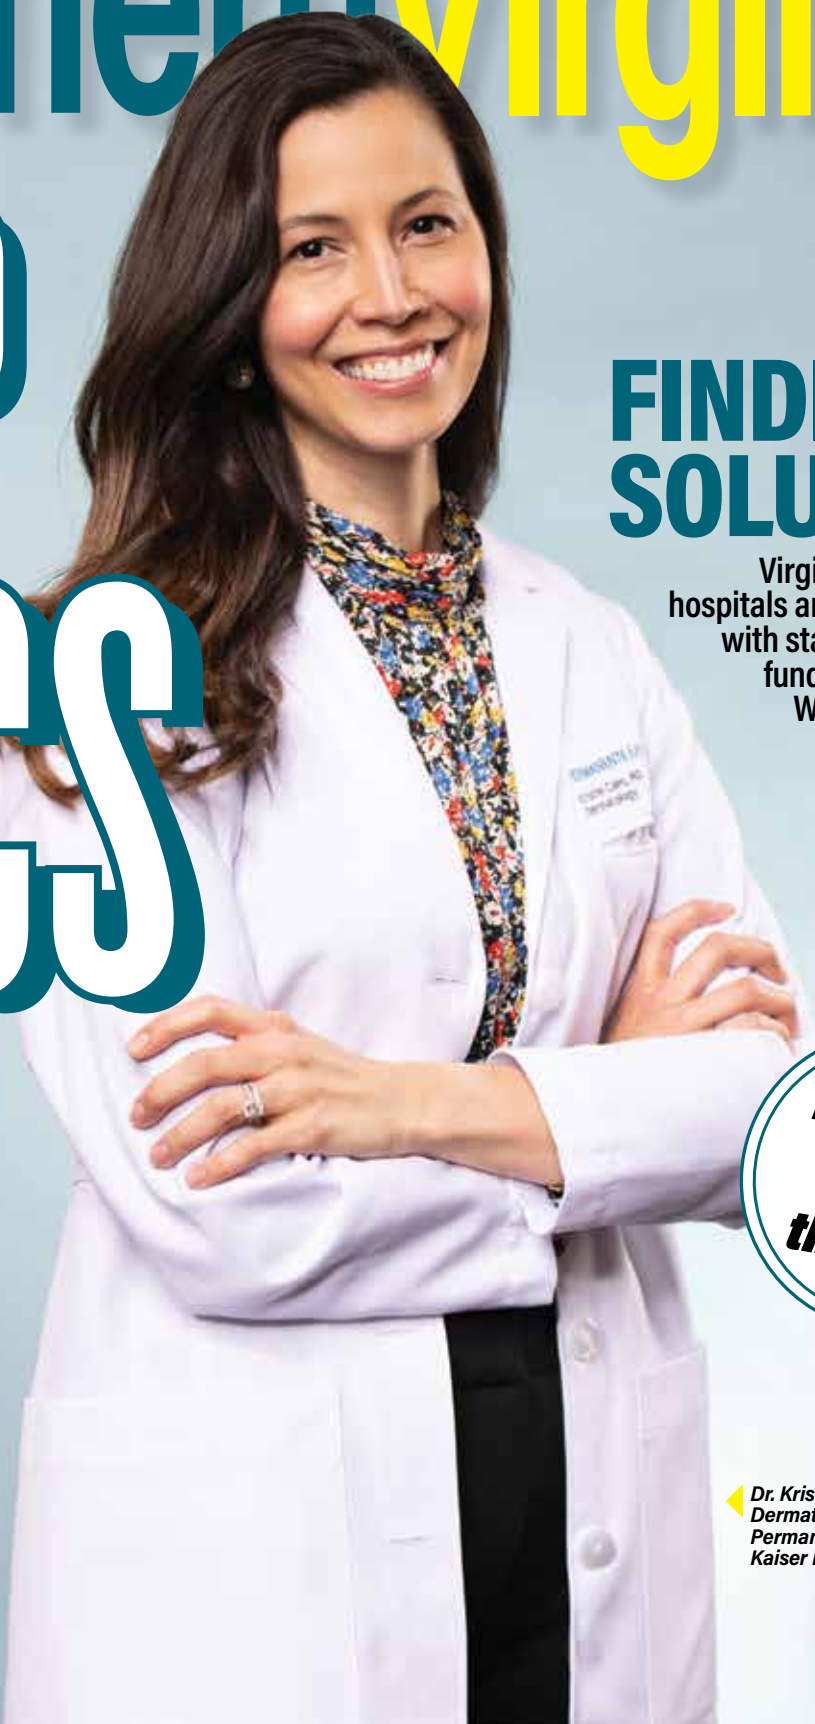

FINDING A SOLUTION

Virginia's psychiatric hospitals are overwhelmed, with staff resigning and funding running out. Who will solve the state's growing mental health problem?

PERMANENTE

TOP DOCTORS 2022

METHODOLOGY

Every year, we ask doctors in Northern Virginia and DC to nominate the region's Top Doctors in over 50 specialties. Along with peer surveys, we took the process a step further by reaching out to the area's local hospitals to nominate their best doctors. The list features a combination of peer nominations and hospital panel and medical group selections.

Peer Review: We sent surveys to Northern Virginia and DC doctors asking them to recommend other doctors to whom, in their expert opinion, they would refer friends and family.

Hospital Panel: We worked with local hospitals and medical groups to put together panels of head doctors to discriminatorily look at those with privileges at their hospital and practice. Each panel nominated doctors based on all the internal tools they are privy to: internal evaluations, patient reviews, and overall quality of care.

Although some Top Doctor winners choose to advertise in the magazine, doctors cannot pay to be included on the list. The listing and the advertising sections are separate entities.
