QUALITY CARE WITH YOU AT THE CENTER

At Kaiser Permanente, care and coverage come together—so you get what you need to stay on top of your health in one convenient package.

Great care from great doctors

No matter which available Kaiser Permanente doctor you choose, you'll be in skilled, experienced hands—and your health is their chief concern.

Choosing a doctor—your partner in health

We make it easy to find an available Kaiser Permanente doctor who's right for you—and you're free to change to another available Kaiser Permanente doctor at any time, for any reason. Go to kp.org/doctor for details about their education, specialties, languages spoken, and more.

Preventive care to help keep you healthy

Preventive care is key to how we practice medicine at Kaiser Permanente. It can help you avoid some health issues and catch others before they become serious. You pay \$0 copay for most preventive care, including routine physicals and certain screenings and tests such as mammograms.

Your electronic health record plays a vital role: Your preventive care services are tracked in the system, which triggers automatic reminders when you're due for your next screening.

Specialty care when you need it

From dermatology to treatment for cancer, heart problems, and more, Kaiser Permanente doctors and network providers are here to cover your health care needs.

Better care with a connected team

Your doctor, nurses, and other specialists all work together to help keep you healthy. They're connected to each other, and to you, through your electronic health record. So they know important things about you and your health—like when you're due for a screening and what medications you're taking. That way, you get personalized care that's right for you.

Support for ongoing conditions

If you have a condition like diabetes or heart disease, you're automatically enrolled in a disease management program for personal coaching and support. With a well-rounded approach backed by proven best practices and advanced technology, we'll help you get the care you need to continue living life to the fullest.

CARE WHEN AND WHERE YOU NEED IT

It’s easy for you to get the care you need when and where you need it, with convenient locations and virtual care options.

 Many services under one roof	 Convenient care near you	 Virtual care options
Do more in less time. In most of our facilities, you can see your doctor, get a lab test, and pick up prescriptions—all in a single trip.	With multiple locations to choose from, it’s easy to find one near home or work. Many offer same-day, next-day, after-hours, and weekend services. You can also see different doctors at different locations—whatever works best for you. Learn more at kp.org/facilities or turn to page 4 for a map of our locations.	Our members choose how, when, and where to access care, including by email, phone, video, ¹ and e-visit. These are core components of our integrated delivery system, not add-ons, so quality care is built into every experience.

Learn more about Kaiser Permanente at kp.org/medicare.

The features mentioned are available when you get care at Kaiser Permanente facilities.

¹ If you travel out of state, phone appointments and video visits may not be available due to state laws that may prevent doctors and health care providers from providing care across state lines. Laws differ by state.

Kaiser Permanente is an HMO and HMO-POS plan with a Medicare contract. Enrollment in Kaiser Permanente depends on contract renewal. You must reside in the Kaiser Permanente Medicare health plan service area in which you enroll.

MEDICAL CENTERS, DISTRICT OF COLUMBIA
