

Need a quicker path to care?

Choose a Get Care Now option from Kaiser Permanente

Discover our range of 24/7 virtual care services, including E-visits, Get Care Now with a Clinician, and Chat with KP

With our online options, you can get care from the comfort of home—within 2 hours. But which option is right for you? Here's your guide to each service:

Service	What is it?	This option is good for members who...
 E-visit	Answer a brief questionnaire to receive care from a physician. You'll get a response within 2 hours—usually sooner.	Want to get care on their own time for non-urgent medical needs like sore throat, cold/flu, rash, and more.
 Get Care Now with a Clinician	Have an on-demand video or phone visit with a doctor for urgent health concerns—in usually less than 30 minutes. ¹	Want to speak with a physician for urgent care but don't need to be seen in person; this is also a great option when traveling
 Chat with KP	Text chat in real time with an advice nurse or Member Services.	Feel unsure about where to start or how to access care

Get online care for these health matters and more:

- Cold, sinus, and flu-like symptoms
- COVID-19 testing and immunizations
